

You can't keep a good UPS down.

Your legacy UPS vendor keeping you waiting? Eaton 9PXM delivers in under a week!

Instead of waiting – and waiting – for that Symmetra LX, check out the Quick Cross Guide below. An Eaton rackmount or tower 9PXM can swiftly replace a Symmetra LX of the same kVA rating. Generally, a Symmetra's kVA rating is denoted by the number(s) appearing before the "k" in the part number.

Good things come to those who can't wait. Eaton's 9PXM offers:

- ✓ Full UL and IEC Cybersecurity
- ✓ More Power
- ✓ Reduced footprint

Current lead times for non-custom *and* custom 9PXMs **in any volume** are running six days or less. *Include 9PXM rack mount kit in BOM.*

Preconfigured Symmetra LX vs Eaton 9PXM Quick Cross Guide

Eaton SKU	APC SKU
9PXM8S4K	SYA4K8P
9PXM8S8K	SYA8K8P
9PXM8S12K	SYA12K16P
9PXM8S16K	SYA16K16P
9PXM12S20K
